Profile Summary

I'm a junior front-end developer passionate about building user-friendly and visually engaging web applications. I specialize in HTML, CSS, and JavaScript, with a strong focus on responsive design, clean code, and seamless user experiences. Currently, I'm deepening my expertise in React, TypeScript, and Next.js, building modern, scalable, and high-performance interfaces. Alongside front-end development, I'm exploring databases and SQL to better understand how data drives applications. I also enjoy leveraging AI tools and automation to streamline workflows and improve project efficiency. Always eager to learn and collaborate within dynamic teams, I'm motivated to continuously grow my skill set and contribute to innovative, impactful digital products.

Work Experience

Front-End Developer | WordPress & React - archKATect

Jun. 2025 - Present

Front-End Developer with a strong background in building high-quality WordPress websites using Elementor Pro, ACF. Recently expanding into React, creating components and actively learning modern front-end practices while collaborating with teams on UI and styling. Passionate about clean, maintainable code and delivering user-friendly experiences that drive engagement and results.

E-commerce Content Manager | Workflow & Automation Specialist - itsys.gr

Jan. 2025 - May 2025

Experienced E-commerce Content Manager with a strong background in optimizing online product listings, creating SEO-friendly content, and managing large-scale product catalogs. Skilled in designing and maintaining databases to streamline operations and ensure inventory accuracy. I develop custom automation tools using Python and AI technologies to enhance workflow efficiency, reduce manual tasks, and boost product visibility. Proficient in CMS platforms, image editing, and data analysis to improve the online shopping experience and drive sales performance.

E-Commerce Developer | Site Performance & Workflow Automation - clickdom.gr

2022 - 2025

Responsible for developing, maintaining, and optimizing the company's e-commerce platform to ensure a seamless and user-friendly shopping experience. Oversee daily operations, including website troubleshooting, performance improvements, and backend functionality. Coordinate supplier orders, manage product and inventory updates, and implement technical enhancements to improve site speed, security, and overall efficiency. Focus on automating key workflows to reduce manual tasks and increase operational scalability, ensuring smooth and efficient e-commerce performance.

Dynamic e-commerce professional with a progressive career journey, starting as a Salesman and swiftly advancing to assume multiple roles concurrently. As a Team Manager, I led a high-performing team, exceeding sales targets and enhancing customer satisfaction. Simultaneously, in the capacity of E-commerce Manager, I optimized online operations, managed product listings, and implemented successful digital marketing strategies.

In the role of Project Manager, I showcased strong organizational and problem-solving skills, overseeing and successfully delivering various projects by ensuring seamless coordination across departments. This multifaceted experience has equipped me with a comprehensive understanding of the e-commerce landscape, from sales and team management to strategic planning and project execution. Ready to bring this diverse skill set to contribute effectively in a challenging and dynamic work environment.
